

6th Annual Pennsylvania Energy Management Conference

written by admin | May 17, 2016

Valuable Sponsorship & Display Opportunities

Join the Industrial Energy Consumers of Pennsylvania, the Pennsylvania Foundry Association and the Manufacturers' Education Council and sponsor one of region's premier energy management conferences. For valuable sponsorship opportunities, **click here for sponsorship availability** . To display your energy management products/services, **click here for displays opportunities**.

Call for Presentations and Complete Agenda

The conference organizers have issued a call for speakers with brief abstracts due by Friday, June 24, 2016. Organizers are particularly seeking sessions of case studies of energy savings/efficiency. To submit an abstract/application to speak, please use the convenient online form above and in the right-hand column. A complete agenda, with speakers, topics and times in a PDF format will be posted by **Friday, August 5, 2016**.

Investment

Receive priceless insights into effective strategies to reduce energy costs & sound energy management; what's ahead in terms of natural gas prices & electricity rates; energy efficiency & conservation plans, electricity shopping & strategic energy procurement; demand response; financial incentives for solar energy; energy assessments; gas & electricity coordination; creating value to your organization and proven techniques to reduce energy consumption and best practices in energy management from some of Pennsylvania's leading energy experts. The bottom line is you cannot afford to miss the 6th Annual Pennsylvania Energy Management Conference.
