

Advanced Manufacturing Opportunities in Indonesia, Singapore and Japan

written by Lauri Moon | April 28, 2022

You are invited to a free webinar on advanced manufacturing opportunities in Indonesia, Singapore and Japan hosted by the U.S. Commercial Service and the National Electrical Manufacturers Association (NEMA). Hear from leading industry experts and U.S. embassy commercial specialists in each market. Consider if you should apply to join the official executive-led trade mission, Oct. 17-21, 2022.

Learn about abundant opportunities in three Asian markets that are experiencing strong growth in advanced manufacturing. The webinar is designed for U.S. suppliers of advanced technologies that increase productivity and quality, reduce energy use, and enable manufacturers to monitor and interact with their supply chains. Speakers will include industry experts from each country in a panel discussion and market briefings from U.S. embassy industry specialists in each market.

Industry focus:

- Industrial machinery
- Electrical components
- Industrial automation technology
- Industrial controls and process controls
- Industrial robot technologies
- Sensors and metrology software and equipment
- Human machine interfaces and programable logic controllers
- Automation, robotics software solutions and engineering services
