CMMC in the Cloud: Navigating Cloud Provider Options for Compliance

written by Lauri Moon | January 29, 2025

Choosing the right cloud provider is one of the most complex decisions in CMMC compliance. With options like GCC, GCC High, and commercial cloud environments, understanding how to secure Controlled Unclassified Information (CUI) in the cloud is critical. This session will break down cloud compliance challenges, provider options, and best practices for simplifying your CMMC journey.
