

CMMC Level 3 Preparedness Training

written by Lauri Moon | July 16, 2021

Join us for an interactive webinar focused on the Cybersecurity Maturity Model Certification (CMMC) Level 3 Preparedness Training.

- Prepare your business to practice good cyber hygiene and protect Controlled Unclassified Information (CUI).
- Discover the 17 domains that apply to CMMC Level 3, including access control and risk management.
- Learn the essential differences between CMMC Level 3 and NIST SP 800-171.

Register

After attending, this webinar, connect with IMC's Nathan Allen for a discussion on if / how CMMC applies to your business.

Project Spectrum is a U.S. Department of Defense (DOD)-sponsored initiative that provides companies, institutions, and organizations with a comprehensive, cost-effective platform of cybersecurity information, resources, tools, and training. Our mission is to improve cybersecurity readiness, resiliency, and compliance of small/medium-sized businesses and the Defense Industrial Base (DIB) manufacturing supply chain.
