Cyber Threats and Responses in the Defense Industry

written by Lauri Moon | November 8, 2019

CREC will host a webinar to discuss the National Defense Industry Association's recent paper "Beyond Obfuscation: The Defense Industry's Position within Federal Cybersecurity Policy" (https://www.ndia.org/policy/cyber/2019-cybersecurity-report). This report examines recent cyberbreaches, the evolving regulatory environment governing cybersecurity, and analyzes a survey of 300 defense suppliers and their experiences with cybersecurity. Furthermore, the report provides recommendations for government and industry based on their findings.

Join NDIA Director of Regulatory Policy Corbin Evans to learn more about the cybersecurity challenges businesses in your region face and how best to support them in addressing these threats. He will also provide an update on recent developments around the Cybersecurity Maturity Model Certification (CMMC).

Presenter:
Corbin Evans, Director of Regulatory Policy, National Defense Industrial Association
