

# Cybersecurity & Real-Time Regulation Compliance for Today's Manufacturer

written by Lauri Moon | April 10, 2019

We will be discussing complete NIST/DFARS compliance in one package. Grow your business, keep your contracts, secure your business. The NIST/DFARS Compliance presentation includes everything your business needs to meet compliance requirements.

**This webinar will provide answers to the ever changing risk exposure to manufacturers today. We will cover topics including:**

- Identifying Assets & Vulnerabilities
- Securing Your Organization
- Employee Training
- Ongoing Security Monitoring
- Post Breach Support (Including our Breach Hotline and Cyber Liability Insurance)

## **PRESENTED BY:**

Black Bottle, an Information Security Company that provides network security assessments, data breach protection, security monitoring, compliance assessments and creates comprehensive security programs that include cyber insurance.
