

Cybersecurity & Real-Time Regulation Compliance for Today's Manufacturer

written by Lauri Moon | April 10, 2019

We will be discussing complete NIST/DFARS compliance in one package. Grow your business, keep your contracts, secure your business. The NIST/DFARS Compliance presentation includes everything your business needs to meet compliance requirements.

This webinar will provide answers to the ever changing risk exposure to manufacturers today. We will cover topics including:

- Identifying Assets & Vulnerabilities
- Securing Your Organization
- Employee Training
- Ongoing Security Monitoring
- Post Breach Support (Including our Breach Hotline and Cyber Liability Insurance)

PRESENTED BY:

Black Bottle, an Information Security Company that provides network security assessments, data breach protection, security monitoring, compliance assessments and creates comprehensive security programs that include cyber insurance.
