

Cybersecurity Lunch and Learn

written by Lauri Moon | June 25, 2019

We hear a lot about cybersecurity risk these days. And many companies have an IT company (outsourced) or an IT Department that handles virus protection, malware protection, etc. However, not many small businesses realize that they are a target of hackers and how vulnerable they really are.

IMC is sponsoring a cybersecurity lunch and learn event in combination with Real IT Care (Technical Support) and Core Business Solutions (Consulting Support).

Who should attend: Small business owners, IT staff, quality managers, and anyone wanting to understand risks and get answers on how to appropriately address cybersecurity risks for your organization. Special topic for DOD contractors will be included regarding NIST SP 800 171 compliance as well.
