

Digital Marketing & Web Design Essentials for Small and Midsized Manufacturers

written by Lauri Moon | April 8, 2021

In today's economic climate, and with COVID-19 causing businesses to operate virtually, manufacturing leaders need to be as resilient and creative as possible when reaching out to the market. Successful manufacturing companies utilize a mix of marketing tactics to generate awareness and ultimately drive sales. But how do you know which tools to use, and when?

This webinar will help you understand how you can use both inbound and outbound marketing strategies to help grow your customer base. From your brand identity and target markets, to your website and online advertising, learn how to use the best marketing tools to generate leads.
