

Disaster Risks, Trends, and Being Prepared in 2021

written by Lauri Moon | March 18, 2021

With a major winter storm already in the rear view mirror, what else does 2021 have in store? Join National Association of Manufacturers (NAM) for an assessment of the upcoming year and a discussion of critical risks manufacturers may face including flood, wind and supply chain disturbances. Discover suggestions for planning your business' response to a disaster, including tips to create a "culture of preparedness," preparing your people and planning for corporate giving and volunteering, even virtually.
