

Funding and Incentives to Finance Energy Efficiency Improvements in Your Facility

written by Lauri Moon | May 18, 2023

This PennTAP webinar will cover funding opportunities for small to mid-sized companies throughout Pennsylvania.

Improving energy efficiency and reducing energy-related costs can often require investment in new equipment, technology, or controls. Many companies are eligible to apply for funding to assist with improvement efforts.

Eligibility of sites and projects, as well as project payback estimates, should be considered carefully.
