

Funding and Incentives to Implement Energy Efficient Projects

written by Lauri Moon | June 25, 2019

Opportunities to improve efficiency and reduce energy-related costs often can require investment in new equipment, technology, or controls. Identifying funding available to your business and providing estimates of project payback are key components.

Many companies could be eligible to apply for funding to assist with improvement efforts. Eligibility of sites and projects, however, should be considered carefully.

This PennTAP webinar will discuss funding opportunities for small to mid-sized companies throughout Pennsylvania.

Presented by:

- Denise Bechdel, Energy & Environment Team Lead
- Ed Boito, Small Business Ombudsman, PA Dept of Environmental Protection
