

How To Offset Financial Losses with Energy Efficiency Projects

written by Lauri Moon | June 26, 2020

COVID-19 has significantly impacted small businesses throughout the state. One way businesses can offset those financial losses is through implementing an energy efficiency project. This webinar will cover everything from simple no-cost/ low-cost changes to more complex energy efficiency projects. PennTAP will go over energy saving tactics related to your building envelope, lighting, compressed air system, and boilers. In addition, this webinar will cover different funding sources available for small to mid-sized companies in Pennsylvania to complete these projects.
