

How to Write an Export Compliance Manual

written by Lauri Moon | April 14, 2021

An Export Management and Compliance Program (EMCP) is a written set of export-related guidelines and operational policies, procedures, and safeguards that tell employees what is expected of them and provides management with a framework to evaluate whether: what should happen, does happen and what should not happen, does not happen.

A good EMCP should include:

- Reflect Operational Reality
- Be Up-to-Date and Current
- Appropriate Company-Specific Content
- Wide Distribution
- Fully Defines Standards of Conduct for Export Operations: Policies, Functions, Processes, Responsible Personnel
- Documents Procedures for Checks and Safeguards
- Integration of Policies and Procedures
- Monitoring to Continuously Improve and Ensure Integrity
- Adequate Resources
- A Compliant Corporate Culture

This webinar will:

- Identify the various control agencies and regulations
- Help you understand export control classification
- Define: What is an export, Technical data, Technical Services, US-Persons, and other key items
- Provide the steps in creating an EMCP by reviewing the structure of an actual plan
- How a Technology Control Plan (TCP) is integrated into a EMCP

Who should attend?

- Senior management
- Export compliance managers

- Logistics/Shipping
- Engineering
- Sales
- Facility security
- IT
- Human Resources
