

Intro to Export Compliance

written by Lauri Moon | September 14, 2022

Export control laws are a complex set of federal regulations designed to protect national security, prevent the proliferation of weapons of mass destruction, further foreign policy, and maintain U.S. economic competitiveness. Unfortunately, the complexity of these export compliance

regulations makes them difficult for manufacturers of all sizes to understand and follow. And the risk of not following the regulations can result in potential fines, loss of export privileges and jail time. Attend this Export Compliance Webinar to learn more on how to minimize the potential risks and become compliant.

During this 1-hour Intro to Export Compliance webinar you will learn:

- The basics of export compliance
- How to determine which regulations apply to your products
- Five questions that govern every export transaction
- Key components of an export management system

Benefits of Attending

Attendees will receive an Export Management System (EMS) Checklist which lists the procedures and tools included in best practice EMS programs.
