

Introducing ISO 45001 & What it Means for You

written by Lauri Moon | January 29, 2019

There's a lot of buzz around ISO 45001, the first global standard for occupational health and safety. With that buzz comes a lot of questions.

And we have answers.

Join **Ryan Hellman** (President and CEO of Hellman & Associates) and **Carol Leaman** (CEO of Axonify) as they explore this new standard, including key requirements, business implications, and the opportunities it presents for you to continuously improve workplace safety.

This informative webinar will provide insight into:

- The basics of ISO 45001
- Where and how training and competence are connected to ISO 45001
- How microlearning can remove key barriers to the adoption of/transition to the standard
- Real-world examples of how industry leaders are using microlearning to create a proactive culture of safety that supports continuous improvement

 **Ryan Hellman, President and CEO, Hellman & Associates**

Ryan Hellman is founder and President of Hellman & Associates, Inc. Ryan has more than 28 years of environmental health and safety (EHS) experience; including the past 20 years spent providing outsourced services and compliance leadership to H&A clients in construction, manufacturing and service-based organizations ranging from start-ups to Fortune 500 companies.

Ryan has experience in the development and management of world class EHS management systems, exceeding expectations of OSHA Voluntary Protection Program (VPP), ISO 18001 and 14001 international management systems. H&A remain one of only three consultation companies in the U.S. to achieve the OSHA VPP Star recognition for a mobile workforce; and thereby extend their knowledge of EHS management to their clients by leading as an example. Ryan, through his organization, has assisted companies decrease injury and illness rates by as much as 50%, achieving levels at, or below, the industry average in as few as nine months and driving measurable change through safety-culture change and enhancement.
