

Online Manufacturing Training: How to Select the Right Solution for Your Company

written by Lauri Moon | February 11, 2020

How does training fit within the scope of your overall operational learning efforts? What is online manufacturing training? What courses do you require? Does the learning management system (LMS) meet your needs?

In this webinar we'll highlight benefits of online manufacturing training for the organization, operations manager, and employees. Next, we'll discuss the research supporting the effectiveness of blended learning solutions and provide tips for using blended learning effectively and then cover some topics to include in your own manufacturing training programs. And, finally, we'll share some tips for beginning your search, including building up an internal search team and creating use cases, before listing specific criteria to use when evaluating courses, LMSs, and providers.

Get all the information you need to evaluate courses, software, and providers to find the perfect fit for your organization's manufacturing training needs.

You'll learn about:

- Training as part of operational & organization learning
- What online manufacturing training is
- Online courses & LMSs
- Blended learning research & techniques
- Common manufacturing training topics
- How to begin your search
- Criteria for courses, LMSs, and providers

Speaker

Jeffrey Dalto, Instructional Designer, Vector Solutions

Jeff Dalto is an instructional designer and L&D professional with more than 20 years of experience in learning and development, including more than 15 years working in the manufacturing and industrial space. He's an expert in adult learning and evidence-based training practices and has worked hand-in-hand with many manufacturing companies on the development or improvement of their training programs (including helping more than 50 different companies implement learning management systems for online training).
