

Optimizing Service Delivery for Manufacturers and Asset Operators

written by Lauri Moon | February 25, 2019

All manufacturer operations – from pharmaceutical manufacturers to power plant operations to energy producers and everyone in between — **need timely maintenance to ensure consistent uptime**. Asset failures can cost companies like yours hundreds of thousands of dollars in lost revenue, reduced asset reliability, and increased safety and compliance risks. By **transforming service delivery from manual processes to digital service execution**, you can provide smarter maintenance while also optimizing resource utilization and improving safety and compliance indicators. Join this webinar from ServiceMax to learn how to improve your service execution.

The webinar will address:

- **Industrial Internet of Things (IIoT)** — supporting the capture and analysis of data to help deliver the right service actions
- **Asset Performance Management (APM)** — providing an analytical platform for asset data management, analysis and decision making
- **Real-time insights at the point of resolution** — modern tools for service execution that feature accurate asset data to ensure the right response.
