The training is being held October 29 & 30, 8:00 a.m. - 1:30 p.m. each day. Light

lunch provided.

Why Attend

Workplace safety is not just a compliance requirement—it's a crucial part of protecting your team, your operations, and your bottom line. This program provides **practical, real-world knowledge** to help participants recognize, prevent, and respond to common workplace hazards. From machine guarding to emergency action planning, you'll gain a strong foundation in essential safety practices that **reduce risk** and **improve workplace culture**. Upon completion, participants receive an official OSHA wallet card and training certificate, demonstrating their commitment to safety and compliance.

Topics Covered

- Introduction to OSHA
- Walking and Working Surfaces
- Exit Routes, Emergency Action Plans, Fire Prevention and Protection
- Electrical
- Personal Protective Equipment
- Hazard Communication
- Machine Guarding
- Lockout - Tagout
- Safety and Health Programs

Who Should Attend

This training is designed for individuals working in the manufacturing sector who want to strengthen their knowledge of OSHA standards and workplace safety practices. Ideal participants include production workers and machine operators, frontline supervisors and team leads, maintenance staff and technicians, safety coordinators and compliance officers, HR or training managers overseeing workforce safety, and anyone new to manufacturing who wants a strong foundation in OSHA requirements
