

Small Business Cost Savings and Energy Reduction Calculator Toolkits

written by Lauri Moon | April 30, 2021

There are simple, low to no-cost steps you can take to make your building more energy-efficient, more cost-efficient, and more sustainable for the environment. PennTAP has created a free energy toolkit as a starting place and guide to small businesses when estimating potential energy savings for your building.

PennTAP's toolkits have been designed to help estimate cost savings, energy reduction, and project payback.
