

Upcoming CMMC Revision

written by Lauri Moon | November 9, 2021

The Department of Defense recently announced major changes to the CMMC program. Cyber compliance experts from eResilience will provide a brief update during this 30-minute webinar explaining what the anticipated changes are and how to prepare properly.

The DFARS 252.204-7012, 7019 and 7020 requirements will remain unchanged, which means that your current efforts focused on compliance with those clauses is still correct - but it will be important to understand what to expect from the new CMMC 2.0. [Click here for more information on CMMC 2.0](#)

As a CMMC Licensed Training Provider and Registered Provider Organization with multiple Registered Practitioners, Provisional Assessors and Provisional Instructors, eResilience is tracking these developments closely. Learn what changes are expected and how they may impact your current plans for compliance.

ABOUT OUR PRESENTERS

Tim Williams, Technical Director

Tim Williams is the Technical Director of Referentia Systems and eResilience, and is a CMMC-AB trained Provisional Instructor and Provisional Assessor. Mr. Williams is a CISSP-certified IT security professional with 34 years of success in providing product design, development, and integration guidance for commercial and government secure and accredited systems. He is an experienced trainer and is part of the small group of security experts to complete the initial CMMC-AB Provisional Instructor training, to begin the process of training CMMC Assessors.

Larry Lieberman, Cyber Evangelist

Larry Lieberman has been a co-presenter and educational content developer for a multitude of cybersecurity compliance-focused courses, training events, webinars

and other outreach and awareness building efforts that have provided insight and important information to thousands of large and small defense contractors throughout the DIB.
