

Webinar: E-Learning Trends and Tools - How to Make Safety Training More Engaging

written by Lauri Moon | June 18, 2018

E-learning is transforming the way organizations are providing safety and compliance training to employees. New tools that leverage mobile devices are making training opportunities more convenient with the ability for employees to receive learning any time of day at nearly any location. They are also adding to the effectiveness of training, with the use of video, microlearning and gamification making for a more interesting and interactive learning experience.

In this webinar, we will explore the different learning and development needs and challenges faced by organizations today. By combining flexible e-learning tools with classroom training, leaders can develop a customized learning experience based on the unique training needs of an organization, which will result in a more prepared and safer workforce.

- The power of video and interactivity to make learning stick
- Why Do-It-Yourself customized e-learning content is an important part of employee engagement
- 4 ways microlearning can improve your safety training
- Key organizational challenges in learning and development
