

Webinar: ISO 45001:2018 Key Highlights

written by Lauri Moon | February 26, 2018

This webinar will cover some of the key changes as the new standard for Occupational Health and Safety is launched.

Customers who currently have an OHS Management System, such as OHS 18001, will want to learn the basics and how it will affect their current systems. This is a high level overview, designed to focus only on the areas that represent new or changed items, to help your transition to the new standard.

Presented by Candace Orbaugh, Sustainability Programs Manager, DQS Inc.
