

Webinar: Managing Your Safety Program - Beyond Compliance

written by Lauri Moon | April 9, 2018

According to OSHA, a little more than a third of workplaces that were required to file their reports online this year did not file. As a safety professional, your responsibility is to return your employees home safely. But you are also required to submit reports and document activities so you stay in compliance. Managing all of the tasks can be challenging, without tools to support and employee buy-in to engage in your safety program.

In this webinar, safety expert Langdon Dement will discuss the role of employee engagement in managing an effective safety program, and share a new easy-to-use tool that promotes proactive reporting and streamlines the process for submitting files to OSHA and other regulatory bodies.
