

Webinar: The State of Industrial Internet of Things (IIoT)

written by Lauri Moon | February 26, 2018

From industry to industry the industrial internet of things is creating tremendous value. This webinar, based on insights from *The State of the Industrial IoT*, will provide a data driven view into how manufacturers are using IoT to create business value today. This research provides an in-depth analysis of the industries that are leading IoT deployments, how business functions are using IoT, and the types of business value generated. This webinar also explores the degrees of success companies are experiencing in implementation, and where they are in transitioning pilots to production deployments.
