

What is ISO 45001 & What Impact Will it Have on Your Business?

written by Lauri Moon | August 16, 2018

It's been just over a year since the international occupational health and safety (OH&S) standard, ISO 45001, was published. However, for many businesses, the effect this standard will have on their business and supply chain still remains unanswered. With the clock ticking on the 3-year transition period, businesses need to begin taking the steps towards the new requirements now.

The standard, a result of a five-year process involving more than 70 countries, seeks to set a new benchmark in global OH&S by providing effective, real-world solutions for worker safety. As a relatively new global standard, ISO 45001 will continue to shape the health and safety profession and directly impact how organizations manage health and safety, both in and out of the workplace, through hazard controls and risk reduction. In other words, ISO 45001 is here and may impact your business whether or not you adopt the new standards.

This webinar will provide an introduction to ISO 45001, including discussion of:

- What ISO 45001 is and how it fits into existing OH&S standards
- Differences between ISO 45001 and its precursor, OHSAS 18001
- Why ISO 45001 matters and its impact upon your business
- Should your company come into compliance
- How your company can come into compliance

Speaker

 **Travis Vance, Partner, Fisher Phillips**

Travis Vance is a partner in the firm's Charlotte office. He has tried matters across several industries and various subject matters, including employment litigation, business disputes and matters prosecuted by the Mine Safety and Health Administration (MSHA) and Occupational Safety and Health Administration (OSHA). Travis has emerged as a thought leader in the field of workplace safety. His writing

and interviews are followed closely by experts in the safety arena and have been featured in premiere publications such as *Business Insurance*, *EHS Today*, and the *Wall Street Journal*.

 **Tom Cecich, President of TFC & Associates, Strategic Advisor for Avetta**

Tom Cecich is president of TFC & Associates a safety, health and environmental management consulting firm. He also serves as a strategic advisor for Avetta, LLC. Previously he served as the vice president of EHS Global Business Support at the pharmaceutical company GlaxoSmithKline and held safety management positions at both IBM and Allied Chemical Corporations.

Notably, he served as the 102nd president of the American Society of Safety Engineers and is an ASSE Fellow, the Society's highest honor. He was also the past president of the Board of Certified Safety Professionals (BCSP). Mr. Cecich is a certified safety professional (CSP) and a certified industrial hygienist (CIH).
