

Free Energy Audits for Manufacturers

written by Lauri Moon | August 1, 2016

Is your company interested in saving money through pollution prevention strategies and energy efficiency assessments? PennTAP technical advisors and Penn State students will spend a day at your facility examining manufacturing operations to identify opportunities to save energy and reduce waste and operating costs. This service is offered to you at no cost through Environmental Protection Agency (EPA) grant funding, the Department of Energy (DOE) and the Department of Environmental Protection (DEP). PennTAP technical advisors and Penn State engineering students will perform one-on-one pollution prevention and energy efficiency onsite visits, provide recommendations for improvements in energy utilization and waste reduction, prepare and deliver site assessment reports and provide assistance completing grant applications for project implementation.

This free assessment can add a fresh set of eyes for your company to increase efficiency and reduce overhead costs, which can help retain existing jobs or lead to job creation. Contact IMC at info@imcpa.com and learn how to get your free energy assessment.
