

IMC APPI Energy Procurement Partnership

written by Lauri Moon | February 14, 2019

IMC has endorsed APPI Energy to provide data-driven procurement solutions  that reduce and manage electricity and natural gas supply costs for members on an ongoing basis. Every day, APPI Energy identifies the wide range of energy supplier prices across the U.S. and utilizes that data to provide the lowest prices available among many vetted, competing suppliers. Their holistic energy management services include efficiency and sustainability consulting related to demand-side management and renewable energy projects.

APPI Energy now offers a full array of efficiency measures to reduce and track your consumption. To take advantage of this benefit program, contact IMC at info@imcpa.com.
