IMC Hosts PA House Democratic Policy Committee Meeting & Manufacturing Roundtable

written by Lauri Moon | February 2, 2022

On Tuesday, February 1, 2022, IMC and the PA Industrial Resource Center (IRC) Network had the opportunity to host the PA House Democratic Policy Committee Meeting and Manufacturing Roundtable at Penn State University's Innovation Hub. Attracting and retaining a qualified workforce, implementing advanced manufacturing technologies (AMTs) and creating localized supply chains were among the topics discussed during the Policy Committee Meeting.

Thanks to Rep. Scott Conklin and all the Representatives for taking the time to hear from manufacturing leaders across Pennsylvania. We appreciate the Policy Committee's support of PA manufacturing and the mission of the IRCs. Special thanks to Daniel Lutz and Marc Dagata from Metal Integrity, Dr. Tom Kane from Restek Corporation, and Ben Eltz from DiamondBack Covers for their participation on the manufacturing roundtable.
