

IMC participates in STEM program

written by Lauri Moon | May 30, 2024

IMC Business Advisor Rick Terry used the Lego Airplane Simulation Factory to introduce students to manufacturing flow and key concepts during the 2024 Remake Learning Days STEM to the Skies program on May 14 and 16. Now in its third year, this northeastern Pennsylvania initiative offers hands-on learning experiences for youth, families, and educators to explore creative and fun ways of learning. In addition to science, technology, engineering and math (STEM), the program emphasizes the importance of teamwork and collaboration.
