

NC Company Looking for a U.S. Cut & Sew Manufacturer

written by Lauri Moon | September 18, 2017

A company located in Charlotte, NC that makes nylon-spandex nursing bras and nursing privacy covers currently manufacture overseas, but would like to explore bringing production back to the United States. They are producing about 18k-20k units of the nursing bras annually. The privacy cover is a new item that they would like to focus on producing in the United States immediately because of retail interest.
