

Plastic Spray Bottle Supplier Opportunity

written by Lauri Moon | February 25, 2021

A Virginia manufacturer of cleaning and disinfecting products is in need of reliable new suppliers that can provide plastic spray bottles (32oz) with a maximum height of 10-3/4 inches, including the sprayer. The sprayer should be a trigger sprayer typical of those seen in household cleaning spray bottle category of products. The bottle configurations need to be round because of the labeling processes. Although a single supplier is idea for both bottles and sprayers, they can be two separate suppliers.

If you or a company you know would have interest in pursuing this opportunity, please contact IMC Business Advisor, Dana Gordon at danag@imcpa.com or 814-933-7828.
