

Webinar: Leading the Way with Manufacturing USA Institutes

written by Lauri Moon | February 6, 2018

Connect with people, ideas, and technology that will advance your manufacturing business through the Manufacturing USA institutes. In this webinar, you will hear from representatives of 5 of the Manufacturing USA institutes about how you can leverage their resources to accelerate your competitiveness.

By connecting with the Manufacturing USA institutes and their affiliated resources in New York State, you will position yourself at the cutting edge of advanced technology and innovation. Here's how:

- Access opportunities for growth through shared R&D, workforce development, and more
- Learn about new project funding opportunities
- Gain access to advanced manufacturing facilities, equipment, and expertise
- Be a part of a national network of manufacturers working together to advance the future of U.S. manufacturing competitiveness

Meet the Presenters:

Agenda

1:00PM-1:05PM - Welcome & Introduction
