

IMC Announces Using AI in HR Webinar Series

written by Lauri Moon | November 14, 2024

Using Artificial Intelligence to Support Human Resources in Manufacturing

Four 90-minute Modules

In the rapidly evolving landscape of human resources, artificial intelligence (AI) is emerging as a transformative force. HR practitioners must be aware of how AI can enhance HR practices to stay competitive, improve efficiency, and create a more engaged and satisfied workforce. This 4-session program explores the significance of AI in HR. AI can increase efficiency and productivity of HR operations to improve candidate experience and provide data-driven insights into decision-making and personalize employee development.

In this webinar series you will learn to:

- Analyze job roles effectively using AI tools and explore how AI enhances recruitment processes, improving communication and candidate experience in talent acquisition.
- Identify best practices in onboarding and employee engagement, utilizing AI technologies to automate processes and foster a more engaging workplace

environment.

- Examine the role of AI in supporting employee relations and learning & development initiatives, focusing on strategies to improve retention and training outcomes.
- Assess the importance of HR analytics and compliance, exploring how AI can enhance data-driven decision-making and ensure adherence to regulatory standards within HR functions.

Schedule:
