

# Choosing the Right CMMC Strategy for Your Business Size, Contracts, and Risk Tolerance

written by Lauri Moon | February 3, 2026

With multiple compliance paths available, selecting the right CMMC strategy is a business decision as much as a technical one. This capstone session will help contractors evaluate different approaches based on company size, contract requirements, available resources, and risk tolerance. Participants will leave better equipped to choose a compliance path that fits their organization long-term.

# CMMC Service Providers, MSPs, and Shared Responsibility: Where Contractors Get Burned

written by Lauri Moon | February 3, 2026

Many CMMC challenges arise from misunderstandings around external service providers and shared responsibility. This session will clarify what contractors remain accountable for when using MSPs, cloud providers, and other third parties. Learn where gaps commonly occur and how to avoid assessment delays tied to external dependencies.

# CMMC: How Contractors are Passing Without Securing Their Entire Network

written by Lauri Moon | February 3, 2026

One of the biggest drivers of cost and failure in CMMC assessments is improper scoping. This webinar explains how scoping decisions affect compliance requirements, assessment outcomes, and long-term sustainability. Attendees will learn how organizations are limiting scope effectively while still meeting CMMC expectations.

# CMMC: What Contractors are Experiencing in Real Assessments

written by Lauri Moon | February 3, 2026

With CMMC assessments now underway, many contractors are hearing conflicting information about what assessors are really looking for. This session will share real-world insights from early assessments, including common surprises, frequent deficiencies, and where companies are getting tripped up. Attendees will leave with a clearer understanding of what matters most as CMMC moves from theory into execution.
