Once registered, you will receive login information for the conference call.

Why Root Cause Analysis is the Cornerstone of Asset Performance Management

written by Lauri Moon | April 9, 2020

Physical assets are capital intensive and for many organizations are considered to be the life blood of their business. No enterprise can expect to achieve peak performance unless these assets reliably perform at optimal levels. To achieve operational excellence your overall Asset Performance Management (APM) strategy needs to be proactive and effective. Many asset-intensive organizations continue to use break-fix maintenance plans to manage their production assets. Not only does this reactive approach increase cost through increased downtime and lost

production, but unplanned shutdowns or failures can lead to environmental health and safety incidents. Good APM has been proven to reduce unplanned downtime, increase asset availability, decrease maintenance costs, and reduce the risk of failure for assets that are most critical to operations.

By including **proactive Root Cause Analysis** (RCA) as a core component of your APM strategy, you can improve:

- Availability - Assets are consistently available to perform
- Reliability - Assets perform their intended function consistently avoiding any operational interruption

This webinar will address the core components of (APM) and how an effective RCA process will support increased asset performance and cost control.

At the end of this webinar you will:

1. Recognize the typical pitfalls/barriers/deficiencies in APM programs
2. Understand how KT Proactive RCA Tools address these typical pitfalls
3. Learn how to build a Collaborative Culture of Continuous Improvement

Why Ergonomics? Communicating & Demonstrating the Value to Business Stakeholders

written by Lauri Moon | April 9, 2020

Safety and human resources professionals appreciate the value of ergonomics. They understand that ergonomics improves employee well-being and leads to reductions in causal absenteeism, recordable injuries, lost-time cases, and workers' compensation costs, among others. However, other business stakeholders, such as plant leadership, quality, operations, manufacturing, boards of directors, and investors often overlook and underappreciate that ergonomics can improve business performance. This webinar will demonstrate how to communicate the value of an ergonomics process to business stakeholders and generate additional support for your ergonomics efforts. In addition, methods to project the financial impact of ergonomics interventions will be introduced.

Participants will learn:

- How to communicate the value of ergonomics in a language (and metrics) that business stakeholders understand
- How to develop a business case for initiating and deploying a sustainable process
- How to project the financial benefit of ergonomics with a risk-based ROI calculator

Coronavirus Employment Law Update for Manufacturers

written by Lauri Moon | April 9, 2020

THIS WEBINAR HAS REACHED CAPACITY. IF YOU'D LIKE A COPY OF THE WEBINAR, EMAIL INFO@IMCPA.COM. 

IMC sister center, DVIRC has developed this webinar to help small and mid-sized manufacturers endure this current crisis and keep your business running smoothly.

Webinar: Coronavirus Employment Law Update for Manufacturers

During the coronavirus pandemic, it seems that the rules for employers are changing every day as federal, state, and local lawmakers issue new regulations, restrictions, and reporting requirements. In this webinar, Cohen Seglias attorney Jonathan Landesman will review information that every manufacturer needs to know during this crisis, including:

- The new paid family leave law
- Unemployment compensation and workers' compensation claims
- Landmines to avoid when implementing layoffs
- Provisions in the stimulus package earmarking \$350 billion for small business loans

This webinar is designed for employers with less than 500 employees.

Leveraging Analytics to Survive Manufacturing's Current Economic Crisis

written by Lauri Moon | April 9, 2020

Has your business productivity stalled due to economic conditions, pressuring you with questions about how to drive additional value? Are you struggling to access and analyze your production data to drive valuable insights for competition in the modern manufacturing environment?

Manufacturers have been dealing with heavy margin pressures and constantly looking at ways to reduce the overall cost and improve operations. To survive, manufacturers are continuing their push towards smart manufacturing through Industry 4.0. The secret weapon is the power of analytics, and we will show you the keys to unlocking it.

In this webinar, you will learn:

- The key analytic use cases manufacturers are embracing to drive productivity
- The impact the emerging technology disruption such as IoT and AI in edge and cloud.
- Why strategically analytic solutions are primed to meet the market demands integrating with advanced AI and ERP Cloud suite
- How these solutions can derive insights from the integrated product, process and equipment data, generate new business models and help in driving smart and intelligent ERP

Challenges in Machine Guarding

written by Lauri Moon | April 9, 2020

With the advances in safety technology and industry knowledge, why are there recordable incidents resulting from machine guarding issues? Join us for this informative webinar in which we discuss some of the common challenges and issues with machine safety and safeguarding. Understanding some of the gaps will help develop a more effective machine guarding program, to help make your workplace a safer place.

State of the EHS Industry: Exploring the Results of the EHS Research Study

written by Lauri Moon | April 9, 2020

Does your organization invest in EHS or does it see it as a necessary evil? The distinction matters.

New research shows that to maintain a strong safety culture and high performing EHS program, organizations must move away from manual processes and invest in modern technology.

Join experts from KPA and EHS Today to explore the results of the EHS State of the Industry Benchmark Report. Together we'll discuss what high performing EHS Programs are doing right, and where poor performing EHS programs are struggling. You'll leave with tactical next steps to ensure your EHS program joins the ranks of the high performers.

Opioids/Cannabis Workplace Drug Testing: What Should Employers Know?

written by Lauri Moon | April 9, 2020

The opioid crisis has escalated dramatically in the past decade across the country, and those affected may also be your employees. At the same time, the marijuana legalization movement has grown, and a number of states now not only permit medical marijuana but also recreational marijuana. With the potential for more employees to be under the influence of both legal and illegal drugs, what can employers do to maintain a safe workplace? What restrictions are there for testing employees for drug use?

This webinar will explore this issue and cover the following topics:

- The rise of the opioid epidemic and its effect on the American workplace
- The legalization of recreational marijuana in several states
- Restrictions for conducting drug tests for employees
- Whether there are any OSHA implications regarding drug testing
- The role of the Americans with Disabilities Act
- Best practices for conducting drug tests and managing the results

Sequestered Selling

written by Lauri Moon | April 9, 2020

How to Keep Your Head on Straight and Keep Moving Forward in these Uncertain Times!

You are invited to this free 90-minute program on how to keep pro-active in these uncharted waters. We'll touch on:

- How to understand and navigate your emotions and what effect they have on your selling.
- What should I be doing if I am not allowed to call on customers and prospects?
- Do I need to rethink my beliefs during this marketplace? If so, what needs to change?
- How do I harness Emotional Intelligence and apply that science to make sure I am at my best personally and professionally?
- How can I grow from this adversity?

This 90-minute program will provide strategies to be productive even during this outbreak. We'll work on keeping our heads on straight both professionally as well as personally.

After registering, you will receive a confirmation email containing information about joining the program.

Feel free to share with your peers and colleagues. Again, there is no charge for this program - time for all selling professionals and business leaders to stand together!

See GoToMeeting link below to register.
