

Cybersecurity and Cyber Insurance: Like Peas & Carrots

written by Lauri Moon | June 20, 2024

Cyber-attacks are rapidly increasing in both frequency and severity. Adversaries have found new ways to exploit vulnerabilities for profit, making even small and medium-sized enterprises (SMEs) frequent targets. Consequently, new regulations and compliance standards are being introduced,

cyber insurance premiums have risen, and underwriters must ensure that their clients have legitimate coverage. Join us to learn more about how the market is responding to these new threats and price increases. We'll share cyber coverage checklists and explore how underwriters are fighting back by partnering with a new kind of Cybersecurity solution that will keep your assets safe and your premiums low.

Learning Targets:

- How your cyber and risk management controls affect cyber insurance terms, conditions, and pricing
- Defense in depth with layered security
- Keys to identifying exposures, and ways to manage the risk associated with them
- Determining "how much coverage is enough"
