Webinar: Mobility for EHS Management Systems

written by Lauri Moon | March 9, 2018

Environmental Health and Safety (EHS) professionals work in dynamic environments. One day they are in a factory recording chemical inventories, the next they could be in a classroom providing safety training. Whether outdoors, underground or on the shop floor, a mobile solution for accessing key applications and reporting tools makes their job easier and more efficient.

This webinar delves into the importance of mobile capabilities and key application functionality of EHS management systems.

Topics will include:

- The importance of mobile capabilities for remote and field workers
- Key considerations for a mobile strategy
- Top applications needed for the field

Speaker

Kraig Haberer, General Manager, SafeTec Compliance Systems an HSI Company

Kraig is General Manager of EHS, with responsibility for the SafeTec strategic business unit. With more than 20 years of active roles in software businesses, Kraig brings extensive product, marketing and operations experience to HSI. Kraig is the former COO of SiteHawk, an EHS software provider, where he was responsible for business strategy, marketing and day-to-day operations. Prior to SiteHawk, Kraig held senior marketing positions with leading enterprise software companies including SAP, Edgenet and Platinum Technology (now CA).
