

Cut Costs & Increase Margins with the Bill Analyzer Tool

written by Lauri Moon | October 15, 2024

Energy is confusing. A lot of times we pay our electric bills and move on. What if you are paying more than you should for energy?

What if there was a tool that could show you how to drive costs down while connecting you to funding opportunities to optimize your business? What if all that could be done quickly and simply?

In this webinar, you will learn how Enspi's Bill Analyzer can help you:

- Find simple ways to save on your electric costs
- Discover rebates and incentives based on your specific business scenario
- Learn about efficiency upgrades that will help you drive down operating costs.

The Clean Energy Manufacturing in Appalachia (CEMA) team and Enspi have worked together to streamline a tool to help you understand your electric bill and uncover potential cost savings for your operations. The process is simple, free for manufacturers within the CEMA footprint, and takes just minutes to start. Join us for this free and informative webinar as the Enspi team walks through the Bill Analyzer tool, highlights some early results, and next steps to implement recommendations.
