

Funding for Energy Efficiency Equipment Upgrades

written by Lauri Moon | May 1, 2020

Taking advantage of opportunities to improve efficiency and reduce energy-related costs often requires investment in new equipment, technology, or controls. Identifying funding available to your business and providing estimates of project payback are key components to reaching your goals.

Often, many companies are eligible to apply for funding to assist with improvement efforts. Eligibility of sites and projects, however, should be considered carefully.

This PennTAP webinar will discuss funding opportunities for energy efficiency equipment upgrades for small to mid-sized companies throughout Pennsylvania.

Webinar: ISO 50001:2018 Update

written by Lauri Moon | May 1, 2020

The ISO 50001 standard specifies the requirements for establishing, implementing, maintaining and improving an energy management system. The purpose is to enable an organization to follow a systematic approach in achieving continual improvement of energy performance, including energy efficiency, energy security, energy use and consumption.

By attending this webinar you will be able to:

- Identify the changes in 50001:2018 and how they impact your company
- Determine the steps to take to transition, have an action plan
- Understand the standard timeframe to get ready.

Webinar: The Road to Alternative Energy

written by Lauri Moon | May 1, 2020

Energy Efficiency first, then add alternative energy projects to reduce the cost of energy and a company's environmental impact. PennTAP will review methods to maximize energy efficiency, in order to minimize alternative energy equipment and installation costs. PennTAP will also review funding opportunities for energy efficiency and alternative energy projects, to reduce the cost of implementation.
