

# Pik Rite, Inc.

written by Lauri Moon | July 24, 2024

The IMC and its staff have played an integral part in the success of Pik Rite's Continuous Improvement culture as well as directly influencing more efficient production and operations. The proof is in our results - our workplace is safer, our employees are happier, and we're getting more quality work delivered to our customers, faster.

# NuVisions Center

written by Lauri Moon | July 24, 2024

We are a small organization and do not have IT staff. Before we found IMC, the task to implement CMMC seemed almost insurmountable. With their help, the process was no longer overwhelming, and we were able to easily manage the implementation of the CMMC requirements.

# **Prysmian Group**

written by Lauri Moon | July 24, 2024

The attendees of both training programs came away energized and eager to apply their new skills in training, coaching and communications. There is broad consensus that these skills should continue to be developed throughout the company.

# **Nittany Paper Mills, Inc.**

written by Lauri Moon | July 24, 2024

We make investments where and when our workforce is skilled and ready. The training was a solid foundation for supervisor development.

---

# **QCast Aluminum**

written by Lauri Moon | July 24, 2024

The Value Stream Mapping exercise conducted by the IMC enabled us to visually see the overall production process and the areas we needed to target for improvement. Without this process, QCast may not have identified the key areas needed to meet our overall objectives. We look forward to continuing to work with the IMC in the future.

# Lang's Chocolates

written by Lauri Moon | July 24, 2024

IMC's resource consultant's background and knowledge were so relevant, and his delivery set a solid foundation upon which we could build for our re-certification as well.

---

## Metal Integrity

written by Lauri Moon | July 24, 2024

"IMC has been an excellent resource for us to accomplish objectives that we would not have been able to achieve on our own. We would highly recommend any company taking full advantage of the services they offer. We will certainly continue to use them in the future."

---

## Suscon, Inc.

written by Lauri Moon | July 24, 2024

"We were able to drastically increase efficiencies on our production lines. The fallout from covid and the current state of the economy are the only reasons we are not experiencing the full benefits from this project. We were able to take our production from 22000 gallons per day to 32000 gallons per day. We have seen that fall back slightly due to employee turnover and staffing issues but are still able to produce 28000-30000 gallons per day regularly. We continue to use the skills to be more preventative instead of reactive. The owner has invested a great deal into the company in equipment to increase efficiencies. I do not think that would have

happened without the valuable tools and information gained through the IMC team.”

---

# **Diamondback Automotive Accessories, Inc.**

written by Lauri Moon | July 24, 2024

“The results of this project far exceeded my expectations. Every minute and every dollar spent with IMC’s Continuous Improvement team has resulted in tremendous returns. With IMC’s help, we are achieving our mission of being a company that people love to buy from.”
