

Upcoming Virtual Roundtable for SMMs on Advanced Manufacturing

written by Lauri Moon | December 30, 2021

IMC's federal sponsor is inviting small and medium-sized manufacturers (SMMs) to a special webinar for SMMs to help shape the future of U.S. advanced manufacturing strategy on Jan. 12, 2022 from 3-5 p.m. EST. The National Science and Technology Council (NSTC) Subcommittee on Advanced Manufacturing is in the process of updating the National Strategic Plan for Advanced Manufacturing. The plan will improve government coordination and provide long-term guidance for federal programs and activities in support of U.S. manufacturing competitiveness, including advanced manufacturing research and development over the next five to ten years.

NIST, as the co-chair of the NSTC subcommittee, is facilitating a series of roundtables, concurrent with an RFI. The intent of the Jan. 12 webinar is to gather public input from SMMs that may be used in developing the National Strategic Plan for Advanced Manufacturing.

Participate on January 12th using this link. BlueJeans meeting information: <https://bluejeans.com/911195551/3791>
